

## Consider this...

Over 50 years of scientific research and thousands of real-life case histories prove that eating and drinking soy products can cause serious health problems, including:

- Cancer
- Infertility
- Leukaemia
- Endocrine disruption
- Serious thyroid disease

- Osteoporosis
- Dementia
- Gout
- Arthritis
- Menstrual disruption

## Feeding soy formula to babies\* has resulted in many cases of

- Menstruation and pubic hair in girls as young as 5 years
- Development of breasts in infant boys
- Delayed male puberty

- Serious testicular damage
- Irreversible thyroid damage
- Severe gastro-intestinal damage
- Infertility

\*Provides oestrogenic intake equivalent to five birth control pills a day

The multibillion-dollar-a-year international soy industry is aware of these effects, yet continues to hoodwink the public into believing that "Soy is Good For You".

## **Now You Can Learn The Truth!**

"Take Control of Your Health and Escape the Sickness Industry" by Elaine Hollingsworth, Research Director of Hippocrates Health Centre of Australia, is the result of a lifetime's investigations into many unsafe health products and practices, including soy, HRT and aspartame.

In over 200 A4 pages, "Take Control of Your Health and Escape the Sickness Industry"...

- Presents evidence and examples of <u>dozens</u> <u>of health dangers and malpractices</u> hidden from public knowledge
- Shows how you can avoid and <u>protect</u> <u>yourself and your family against them</u>
- Provides simple, <u>natural remedies and</u> <u>alternatives for many common ailments and</u> <u>conditions</u> including HRT and osteoporosis

As featured on Channel 7's "Sunrise" and Alan Jones' Breakfast Show on 2GB
